

ENERGY STAR® Application for Certification

79

ENERGY STAR ® Score¹

One International Place

Registry Name: One International Place

Property Type: Office

Gross Floor Area (ft²): 1,171,211

Built: 1986

For Year Ending: 09/30/2016²

Date Application Becomes Ineligible: 01/28/2017

- 1. The ENERGY STAR Score is based on total source energy. A score of 75 is the minimum to be eligible for the ENERGY STAR.
- 2 Applications must be submitted to EPA within 120 days of the Year Ending Date. The award is not final until approval is received from EPA

Please use the <u>Licensed Professional's Guide to the ENERGY STAR</u> ® for Commercial <u>Buildings</u> for reference in completing this checklist (http://www.energystar.gov/lpguide).

1. Review of Whole Property Characteristics

Basic Property Information			
Property Name for Registry: One International Place Is this the official name to be displayed in the Registry of ENERGY STAR Certified Buildings and Plants?	Yes	□No	
If "No", please specify: 2) Property Type: Office	Yes	∏No	

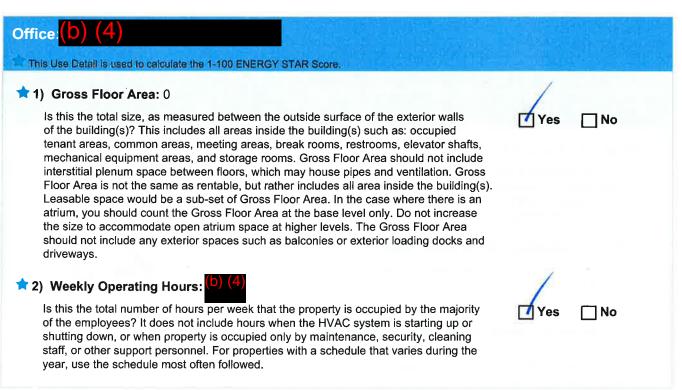

EPA Form 5900-197

Page 1 of 15

Is this an accurate description of the primary use of this property?	/	
3) Location:	IT Vas	□No
One International Place		Пио
150 Oliver Street Boston, Massachusetts 02110		
Is this correct and complete?		
	/	
4) Gross Floor Area: 1,171,211 ft² Does this represent the entire property? (i.e., no part of the building/property was	Yes	No
excluded/subtracted from the total) If "no" please specify what space has been excluded.	/	
5) Average Occupancy:(b) (4)	T/I Vas	□No
Is this occupancy accurate for the entire 12 month period being assessed?		
6) Number of Buildings: 1	IT Vos	П№
Does this number accurately represent all structures?	[les	Пио
Notes:		
Indoor Environmental Standards		
Indoor Environmental Standards 1) Ventilation for Acceptable Indoor Air Quality	Yes	□No
Indoor Environmental Standards	Yes	□ No
Indoor Environmental Standards 1) Ventilation for Acceptable Indoor Air Quality Does this property meet the minimum ventilation rates according to ANSI/ASHRAE	☐ Yes	
Indoor Environmental Standards 1) Ventilation for Acceptable Indoor Air Quality Does this property meet the minimum ventilation rates according to ANSI/ASHRAE Standard 62.1, Ventilation for Acceptable Indoor Air Quality?	Yes	□ No
Indoor Environmental Standards 1) Ventilation for Acceptable Indoor Air Quality Does this property meet the minimum ventilation rates according to ANSI/ASHRAE Standard 62.1, Ventilation for Acceptable Indoor Air Quality? 2) Acceptable Thermal Environmental Conditions Does this property meet acceptable thermal environmental conditions according to	Yes Yes	□No
Indoor Environmental Standards 1) Ventilation for Acceptable Indoor Air Quality Does this property meet the minimum ventilation rates according to ANSI/ASHRAE Standard 62.1, Ventilation for Acceptable Indoor Air Quality? 2) Acceptable Thermal Environmental Conditions Does this property meet acceptable thermal environmental conditions according to ANSI/ASHRAE Standard 55, Thermal Environmental Conditions for Human Occupancy?	Yes Yes Yes	

2. Review of Property Use Details

(b) (4) This Use Detail is used to calculate the 1-100 ENERGY STAR Score,		
Is this the total size, as measured between the outside surface of the exterior walls of the building(s)? This includes all areas inside the building(s) such as: occupied tenant areas, common areas, meeting areas, break rooms, restrooms, elevator shafts, mechanical equipment areas, and storage rooms. Gross Floor Area should not include interstitial plenum space between floors, which may house pipes and ventilation. Gross Floor Area is not the same as rentable, but rather includes all area inside the building(s). Leasable space would be a sub-set of Gross Floor Area. In the case where there is an atrium, you should count the Gross Floor Area at the base level only. Do not increase the size to accommodate open atrium space at higher levels. The Gross Floor Area should not include any exterior spaces such as balconies or exterior loading docks and driveways.	Yes	□No
Notes:		

	1		
★ 3) Number of Workers on Main Shift: (b) (4)			
Is this the total number of workers present during the primary shift? This is not a total count of workers, but rather a count of workers who are present at the same time. For example, if there are two daily eight hour shifts of 100 workers each, the Number of Workers on Main Shift value is 100. Number of Workers on Main Shift may include employees of the property, sub-contractors who are onsite regularly, and volunteers who perform regular onsite tasks. Number of Workers should not include visitors to the buildings such as clients, customers, or patients.	Yes	No	
★ 4) Number of Computers: (b) (4)			
Is this the total number of computers, laptops, and data servers at the property? This number should not include tablet computers, such as iPads, or any other types of office equipment.	Yes	□No	
★ 5) Percent That Can Be Heated (b) (4)	/		
Is this the total percentage of the property that can be heated by mechanical equipment?	Yes	☐ No	
★ 6) Percent That Can Be Cooled: (b) (4)	/		
Is this the total percentage of the property that can be cooled by mechanical equipment? This includes all types of cooling from central air to individual window units.	Yes	□No	
Parking: One International Place Parking Garage			
This Use Detail is used to calculate the 1-100 ENERGY STAR Score.			
★ 1) Open Parking Lot Size: 0 ft² Is this the total area that is lit and used for parking vehicles? Open Parking Lot Size refers specifically to open area, which may include small shading covers but does not include any full structures with roofs. Parking lot size may include the area of parking spots, lanes, and driveways.	Yes	□No	
★ 2) Partially Enclosed Parking Garage Size: 0 ft²	/		
Is this the total area of parking structures that are partially enclosed? This includes parking garages where each level is covered at the top, but the walls are partially or fully open.	Yes	□No	
★ 3) Completely Enclosed Parking Garage Size: 250,000 ft²	/		
Is this the total area of parking structures that are completely enclosed on all four sides and have a roof? This includes underground parking or fully enclosed parking on the first few stories of a building.	Yes	No	

★ 4) Supplemental Heating: No		
Is this the correct answer to whether your parking garage has Supplemental Heating, which is a heating system to pre-heat ventilation air and/or maintain a minimum temperature during winter months?	Yes	□ No
Notes:		
Office: General Office Space

NOTE: When applying for the ENERGY STAR, the signature of the Verifying Professional must match the stamp.

5. Signatory Agreement

I hereby nominate the above described property for award of the ENERGY STAR. I have provided a copy of the Licensed Professionals Guide to the ENERGY STAR for Commercial Buildings to our Licensed Professional (LP) for reference. As documented by the above checklist, this property meets the conditions necessary to qualify as ENERGY STAR. I am submitting this application within four months of the Year Ending Date (September 30, 2016) used to generate the application. I will assist EPA, if requested, in verifying any data included in this application. Furthermore, I agree to associate the ENERGY STAR logo only with this property and to adhere to the ENERGY STAR Identity Guidelines.

Signature (must be a direct employee of the building owner/manager):

Signatory Name: John Benoit

Property Owner: Chiofaro

The government estimates the average time needed to fill out this form is 6 hours (includes the time for entering energy data, Licensed Professional facility inspection, and notarizing the SEP) and welcomes suggestions for reducing this level of effort. Send comments (referencing OMB control number) to the Director. Collection Strategies Division, U.S., EPA (2822T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460
